 - **Staff:** Teachers and class assistants are at all times professional and their performance is regularly being assessed. Regular training of staff is done.
 - **Management staff:** Disci-school is managed by a principal, a secretary to develop a proper administration system and a bookkeeper who ensures financial management.

- **Non-profit organization (NPO):** Disci-school is a NPO to keep school fees affordable and all profits are ploughed back into the school.
 - **Name of Disci-school:** The church decided on Disci-school as we want to teach discipline to kids and teach them what discipleship is all about.
 - **Progress since October 2023:** Since October, we have painted the entrance hall and classes, the after care is now separate from the pre-school, new equipment has been distributed to classes, there is a staff meeting every second Thursday at 10h30. Six new cots were donated, the maintenance manager has improved the building significantly, a plant based diet demo was arranged, two new staff members have been appointed, the creche and class rooms are now accessible to parents, a washing machine was bought, the entrance foyer has been made child friendly and modernised.
 - **Basics of a school:** We believe that every successful school must implement the four R's: Reading, Writing, Arithmetic, Religion.

Parent Committee: Parents volunteered their involvement on a parent committee and suggested the following:

- Tuck shop by children every second Friday;
- Sports day;
- Concert;
- Better communication between parents and staff;
- Parents to hand over and fetch children in the classroom;
- Parents to do voluntary work at Disci-school.

The Parent Committee has been established and will meet once a month.

Parents are welcome to visit Disci-school before enrolling children. The school fees are about 50% of other pre-schools. We are open during school holidays implementing a holiday programme. Breakfast, snacks and lunch is included.
