We are a well-established bilingual Early Childhood Development Centre, situated in Goodwood, a peaceful suburb of Cape Town. We are blessed with amazing staff and assistants of whom many have been part of our family for more than ten years.

Our Crèche-section is registered with the Department of Social Development. They follow an Educare programme and provide full day care for babies as well as toddlers, from three months up to 5 years.

Our Grade R-section is registered with the Department of Education. The qualified and experienced educators follow the CAPS curriculum with a thorough and structured daily programme for learners turning six. Full day and half day options are available.

At Goodwoodpark Crèche cum Pre-primary School we offer excellent education within a caring Christian environment. We strive to promote the holistic development of our children and to support each learner in reaching their full potential.

Our goals are:

- To recognise each child as a unique individual and to accept and respect him for who he is.
- To nurture in every child a positive self-image, a feeling of self-worth, self-confidence, and respect for others as well as respect for authority.
- To give guidance in a loving, sympathetic but firm environment where the child can feel safe and function with confidence.
- To give guidance in social and emotional development for the child to adapt to our ever-changing society.
- To nurture an understanding of culture and religion not only of his own heritage but that of others too.
