Tableview Treasures Educare is a family run business who have been in early childhood education for over 50 combined years. We have international childcare experience having owned and run two successful schools in the United Kingdom for 14 Years. It is our aim to draw upon and implement our experience working in the United Kingdom.

At Tableview Treasures we aim to offer a stimulating and exciting early childhood developmental program where every child's development is a unique experience. The formative years (birth to 7 years old) are the building blocks to a child's development in order for them to flourish and grow as individuals. In these years, children develop the vital skills needed to live a full and exciting life. It is our responsibility as an Educare provider to ensure we give our children the best opportunity to attain these skills.

At Tableview Treasures we offer care for children from 4 months old to 5 years old.

• We are open 6:30am- 6pm, including school holidays.
• We provide breakfast, lunch and afternoon snack. We kindly ask parents to pack in a small morning snack for their child.
• We have CCTV in all the classrooms
• All staff are First Aid trained and have regular in-house training
• We have class WhatsApp groups where we send parents regular photos, videos and updates.
• We are part of the Greater Table View Educare Forum
